hi Adrienne - please find photos attached of the extension added on to the Pavilion Saturday, without permission of course. I vaguely recall hearing you or Brad tell the Steves a year or so ago something to the effect of these extensions will never be approved and "sometimes you just have to say 'No' to events larger than capacity." When it comes to making money and Ray Gallagher saying 'No' is not an option.

At the risk of being a nag and in relation to our telephone conversation/update two weeks ago, if BCDC really wants to end this it needs to shut him down; not just threaten it, but do it, until all violations are fixed. Anything else will not get Gallagher's attention. He treats us all with disdain and gets away with it simply because no one puts the hammer down. Threats do not work.

I strongly encourage a cease and desist order after the holidays - don't want to ruin anyone's holiday party over this - I'm not a grinch!!

I am keeping a December log as I said I would and will forward to you at the end of the month.

Cheers - Keith
